THE undersigned are prepared to introduce into see in Tennessee W. E. CHILDS & OO.'S PATENT ELAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, clastic, and flexible. It contracts and expands with the changes of the almosphere, and will neither evaporate, crack nor rot, and, as to its durability, there is no question. its durability, there is no question.

It is practically insperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction.

It will also be found to be the best thing ever invented to At will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, souttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dellars and fifty cents per hundred square foet, which is cheaper and much better than paint. This Roofing will be found to be the best then gor covering large Roofs where they are exposed to theng for covering large Roofs where they are exposed to fir —such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.

The Cement will be furnished to those at a distance

with directions for using.

Orders tent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST, No. 24, Spruce Street. TESTIMONIALS AND REFERENCES.

TO ALL WHOM IT MAY CONCREST This is to certify that I have examined specimens and Roofs of W. E. Childs & Co.'s Elastic Fire and Water-Proof Cement Roofing," and be lieve it to be eminently superior to any other kind of Roofing in use. I was an eye witness of a severe trial of one of these Roofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all expectation, and saved the building. T. M. HASKELL,

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do June 5. me, the fact is worth knowing.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA,

DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND, FEVER AND AGUE,

And the various affections consequent upon a disorder

STOMACH OR LIVER, SUCH AS Indigestion, Acidity of the Stowach, Colleky Deales, Hearthurn, Loss of Appetite, Despondency, Costiveness, Blind and Riceding Piles. In all Nervous Rheumatic, and Neuralgic Affections, it has, in numerous instances, proved highly beneficial, and in others effected a ecided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful nedicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the sent of life, thrilling and quickening every nerve, raising up the drouping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Wheever expects to find this a beverage will be disappointed; but to the sick, the weak and low spirited, it will prove a grateful arematic corular, possessed of singular remedial presenties. CAUTION.

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing.
